

# CleverLCD Touch Plus

All-in-one PC/Blu-ray DVD player and interactive LCD screen

## Transform your classroom in three steps

- 1 Unpack your CleverLCD Touch Plus.
- 2 Fix to the wall, stand or place on a table.
- 3 Plug in and switch on.

### Beyond the interactive whiteboard...

With the CleverLCD Touch Plus you have everything in one product to make your classroom ready for the future. The powerful PC with Athlon dual core processors, the HD ready, full 1080p LCD display, the in-built Blu-ray DVD ROM, the lively speakers and not least the integrated interactive surround letting you take complete control of the screen, just using your finger. Gone are bright lights, annoying body shadow, routine maintenance, dim displays and poor quality images. No expensive projector lamps to replace and you can keep the blinds open! Children find the screen easy to use, and teachers welcome the instant operation, with no need to connect cables.

Built in PC and  
Blu-ray player

## Fixed or mobile, no wires and no calibration!

The CleverLCD Touch *Plus* can be wall, floor or mounted on a table stand. Options for mobile trolleys and rising stands are also available. With no trailing cables (apart from the power lead!) the CleverLCD Touch *Plus* is ideal for sharing among classrooms, or to be used by children with special needs, where the demands of the Disability Discrimination Act require their inclusion in class. The wireless network ensures connection to the school network, or a wired network is included if preferred. Set-up time is minimal, no need to calibrate the screen and you can be teaching from the screen as soon as it's on.

## Robust, maintenance free and reliable

The CleverLCD Touch *Plus* includes a 4mm toughened safety glass that can withstand a 0.5kg steel ball being swung into its face. This combined with the all metal bezel ensure that it will survive the rigours of the tough classroom environment. The 60,000+ hour backlight life, about 15 times that of a typical projector lamp, will ensure the screens operation for up to 25 years! Independent studies have shown that over 10 year period, typical life expectation of an interactive whiteboard, the CleverLCD Touch *Plus* is far more cost effective.
